Dear Friends of Wildlife,

I am pleased to present the West Sound Wildlife Shelter's 2014 Annual Report covering the fiscal year, January 1, 2014 – December 31, 2014. The financial information, and charts and graphs within its pages represent real life stories of heroism, tenacity, dedication and generosity demonstrated by staff, volunteers, donors, and the wild animals whose lives it is our mission to save and return healthy and fit to the wild.

Since its inception more than sixteen years ago the Shelter has grown dramatically. Today, the West Sound Wildlife Shelter is well on its way to becoming a leader in wildlife rehabilitation in Washington state. We are proud to say that 2014 was the Shelter's most successful year ever in terms of work accomplished. We treated 1,320 patients, responded to more than 5,000 wildlife-related phone calls, and provided powerful education outreach and programs to nearly 8,000 children and adults in the region.

It takes a community to successfully run the Shelter. A huge part of that community is the Shelter's committed volunteer force. Without them, we simply could not care for the animals that arrive at our door each year. The other vitally important part of our community is our amazingly generous donors, without your support there would no doors to open in our area to care for injured wildlife.

We also are grateful for organizational community support — the Bainbridge Community Foundation, the Kitsap Community Foundation, City of Bainbridge Island, and One Call For All. We're also grateful to other community partners, the Bainbridge Island Land Trust for partnering to host the Brown Bag

Lunch Series, the Bloedel Reserve for hosting the annual Spooky Night Walk, and the Poulsbo Parks Department for hosting the annual Summer Solstice Walk.

2015 will be an exciting year for the West Sound Wildlife Shelter as we continue to move forward with plans for a new hospital and education center. As the only wildlife shelter, rehabilitation hospital and education center in the western Puget Sound region, we will soon begin a capital campaign to acquire land and build a new facility to meet the rapidly increasing needs of wildlife and their habitats. The new Shelter will serve the western Puget Sound regional community by ensuring all who live, work, and visit our area enjoy and benefit from a healthy natural environment and the diversity of wild animals that thrive within it.

Of course, we cannot achieve any of this without your help. Please keep the Shelter in mind for your charitable giving and consider volunteering. Also, please join us at our fundraising events and visit us at various events around the region. For more details on our fund raising efforts, please visit our website at www.westsoundwildlife.org.

Thank you for your volunteer time, your generous direct donations, and importantly, for your help in spreading the positive news about the work we are doing within and for our community.

Thank you for caring about wildlife!

Education Program

Children and adults alike are captivated by the magic of seeing our live educational ambassadors up close and in person. In 2014 the Shelter presented 115 educational programs that reached over 7,400 children and adults at classrooms, clubs, civic groups, local fairs, and festivals. These programs were supported by 25 education stewards and assistants, for more than 300 hours of presentations. The math is simple – introducing kids to wild animals enriches their lives today and helps create the environmental leaders of tomorrow.

115 programs  reaching 8,000+ children and adults

Conflict Resolution

What do people do when they have squirrels in the attic or raccoons nesting under the porch? They call us.

Our staff has a host of humane solutions to wildlife-human conflicts, and we're happy to share. We responded to more than 3,000 conflict resolution phone calls in 2014. We also conduct conflict resolution through our hospital work, our education program, and our volunteer program.

When we give people techniques for deterring and redirecting wildlife, everybody wins. Wild lives are saved and public safety is improved when people avoid potentially stressful or dangerous interactions with wildlife. The next time you have an issue with a wild animal, give us a call!

Volunteer Program

114
volunteers

14,325
hours of
donated time

Throughout the year, 114 people served as volunteers in our wildlife hospital, a role that's so critical in the care and rehabilitation of injured, sick and orphaned wildlife.

Not only do stewards learn to feed and care for injured wild animals, they also learn tips and tricks they can share with their neighbors to help keep wildlife conflicts to a minimum. Our stewards are passionate about wildlife, and we're passionate in our appreciation of them. Without the stewards, there would be no wildlife hospital.

In the last year, the stewards volunteered more than 14,300 hours of their time to the patients in the wildlife hospital and community outreach.
